

3M Personal Safety Division

3M™ Aircare™ Filtration Unit

Work in a World of

Comfort

Introducing the NEW 3M™ Aircare™ Filtration Unit

Supplies the highest quality air to the Supplied Air Respirator System and compressed air tools by removing water and oil aerosols, particles and odours from the facility supplied compressed air.

- Ergonomics: compact and lightweight
- Increased Safety and Robustness
- Designed with ease of use features to aid quick assembly and servicing

The Power To Protect Your WorldSM

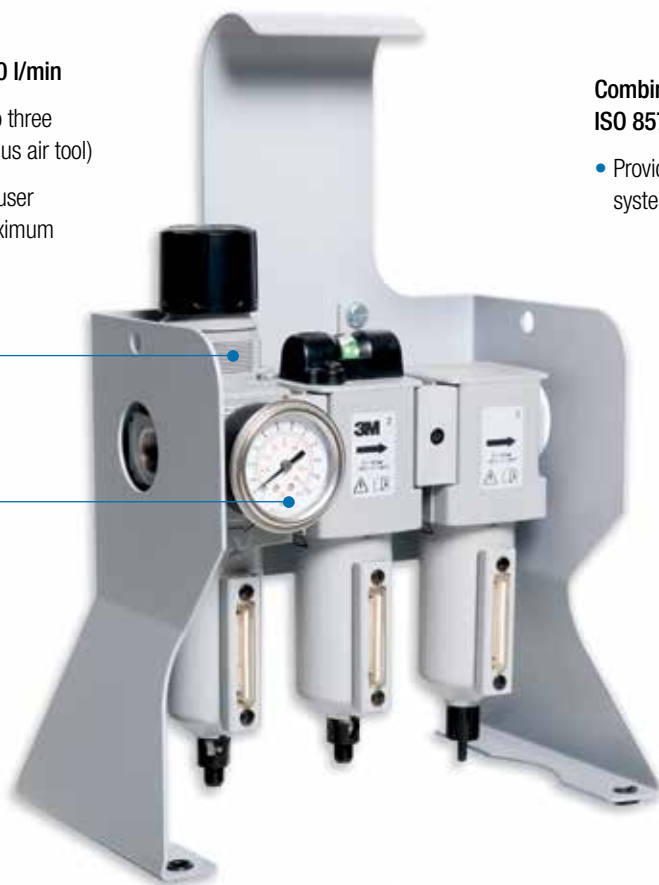

NEW! Max. Flow: 1200 l/min

- Can be used for up to three users (or two users plus air tool)
- Increased airflow for user confidence when maximum air supply is needed

Lockable Pressure Regulator

Pressure Gauge

Combined filter performance meets the latest standards ISO 8573-1-2010

- Provides a high level of protection to the compressed air system and downstream components

Compact and lightweight

Filters:

- Prefilter
- Coalescing filter
- Adsorber filter with activated charcoal

2 Versions available
