3M™ PELTOR™ HY80 Replacement Gel Cushions

Help enhance your comfort

"I wear my hearing protection almost all day long. Therefore, I want them to be as comfortable as possible. When I started using the gel cushions on my headset, I immediately noticed that they felt so soft on my skin."

Linda Lagerlund, Plumber

3M Science. Applied to life.™

"As I am mostly outdoors during my working day, I rely on my personal protective equipment to be comfortable, to work well and to last in all types of weather conditions. I usually wear a helmet with hearing protectors as well as safety eye wear. My hearing protectors feel more comfortable with the gel cushions. When I wear eye wear, I also experience less pressure from the temples with the gel cushions."

Torkild Lindén, Water Operator

Helps enhance comfort

Consist of a soft and thin polyurethane skin filled with silicone gel.

Helps reduce pressure

The silicone gel helps reduce pressure points, e.g. when using eyewear.

Noise attenuation

Maintains a noise-reducing seal around ears.
See User Instructions for attenuation data.

Easy to replace

When used regularly, 3M recommends replacing the cushions at least twice a year to help maintain consistent attenuation, hygiene and comfort.

Compatibility

Compatible with several industrial headsets. See User Instructions for compatible headsets.

Technical data specifications

Description	3M ID	SAP ID
