

## SCHEMATIC:

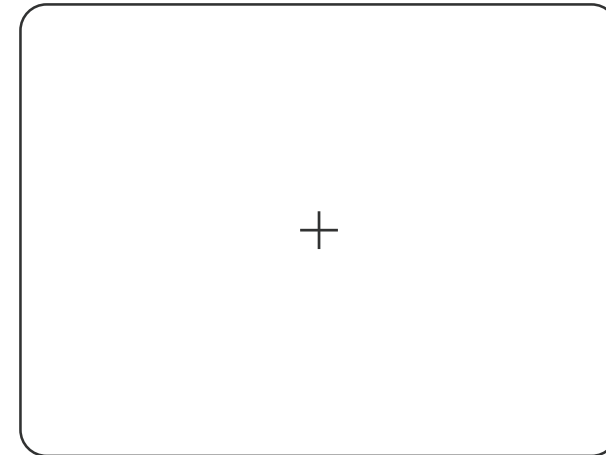

## SPECIFICATIONS:

- Made from MIL-SPEC cordura
- IRR treated
- Splash proof
- Great resistance to abrasion
- Durable 3M glue backing

## QUICK APPLICATION GUIDE:

1. Clean all surfaces with the provided alcohol wipe before applying the wrap - make sure the surface is clean
2. The correct placement of each part of the wrap is marked in the schematic - the order is not important
3. Make sure to properly align the cutout with the surface of the headset before laying it down
4. Before fully applying the cutout, make sure to get rid of any air bubbles underneath
